WHOLESALE LIST

— of —

SEEDS, BULBS PLANTS, Etc.

FOR SPRING, 1908

WE take pleasure in offering our Wholesale List for the coming season, and hope for liberal patronage and orders, which will have best attention and prompt dispatch.

☞ Prices are subject to change without notice.

☞ Write for special quotations on large quantities.

TERMS

☞ All bills are due in ninety days. A discount of three per cent. (3%) will be allowed for prompt cash. All accounts remaining unpaid when due will be subject to sight draft without notice. To establish credit, unknown correspondents will please favor with Trade references.

☞ The Seeds and Bulbs herein offered were grown on contract for us by reliable growers, but we give no warranty, express or implied, nor will we be in any way responsible for the crop either as to varieties or product of seeds. If not accepted on these terms the goods may be returned, and any money paid for same will be refunded.

General List of Flower Seeds

FOR THE TRADE

SPECIAL NOTICE. A marked advance has been made during the last few years in general culture of flowers—and more and more we notice the increasing demand for

Primula Stellata (See page 8)

PRIMULA SINENSIS

Of this great florists' flower we have succeeded in securing the finest strain from one of the best specialists in this line, and can confidently recommend our seed as fulfilling all requirements in brilliancy of colors, robustness of growth, size of flowers and beauty of foliage.

Berger's Invincible Primula Sinensis.

Pure White Giant....			
Brilliant Rosé Giant..			
Deep True Blue Giant..			
Chiswick Red Giant....	100	250	1000
Crimson Giant	seeds	seeds	seeds
Salmon (New) Giant....	\$0 35	\$0 75	\$2 50
Cherry Red (New)....			
Mixed	25	60	2 00

PRIMULA stellata. In separate colors: White, blush, rose, red, lilac, or all colors mixed. 100 seeds 35c., 250 seeds 75c., 1000 seeds \$2.50.

PRIMULA obconica. This variety more than deserves the name it bears. Not alone are the flowers of extraordinary size but the foliage also is extremely robust, thus making the whole plant appear a giant compared to the old-fashioned *Primula obconica*. The popularity of *Primula obconica* is rapidly increasing and with the many colors our strain produces should make it a profitable pot plant. The colors range from the purest white to the deepest crimson and into shades of mauve and lilac. Our strain is selected and of the very best quality.

IRIS KAEMPFERI

This magnificent flower is getting more and more indispensable to every florist, for either cut flowers or planting out. Iris Kæmpferi are hardy in the coldest climate, requiring only rich soil and plenty of water to succeed. H. H. Berger & Co. were the first to introduce this grand species in 1877. Our clumps are large, and flower first season.

Extra Large Clumps. Separate:

Standard Crimson Rambler. Each 75c., doz. \$6.50, 100 \$50.00.

AZALEA

Amœna. One of the most ornamental evergreen Azaleas in existence; perfectly hardy. When in flower the bush is one mass of rich, flaming scarlet; a dazzling sight. Fine for specimens or in groups, and would undoubtedly make one of the grandest novel hedges. 10 to 15 inches, very bushy. Each 50c., doz. \$5.00, 100 \$40.00.

Mollis. Hardy; fine for Easter forcing or outdoor planting; a most brilliant sight when in flower. All colors; yellow, apricot, rose, orange, salmon, white. Well budded, 15-inch. Each 50c., doz. \$5.50, 100 \$40.00. Well budded, 18-inch. Each 75c., doz. \$7.50, 100 \$60.00.

Mollis Standards. Three to four feet high. Each \$1.00 to \$2.00, doz. \$20.00.

Named Varieties of

HARDY HYBRID RHODODENDRONS

The following varieties were among those specified by T. D. Hatfield, in "American Gardening," June 11, 1904, as being perfectly hardy in the New England States, and as having passed through the severe Winter of 1903 and 1904.

Album elegans. Very large white.

Album grandiflorum. White and blush.

Charles Dickens. Dark scarlet.

Everestianum. Rosy lilac, crimped.

Henry W. Sargent. Crimson; large truss.

Roseum grandiflorum. Purplish rose.

Caractacus. Rich purplish crimson.

Delicatissimum. White and blush.

Mrs. Milner. Dark red.

Purpureum grandiflorum. Purplish rose.

Roseum elegans. Fine rose.

Lady Clermont. Rosy scarlet; fine shape.

H. H. Hunnewell. Rich crimson.

All the above well set with buds.

	Each	Doz.	100
5 to 7 buds, 15 in. high.	\$1 00	\$10 00	\$75 00
8 to 10 buds, 18 in. high.	1 25	12 00	90 00
10 to 15 buds, 20 in. high.	1 75	17 50	125 00

STANDARD-GROWN RHODODENDRONS

In hardy American varieties only, straight stems 4 to 5 feet high, strong crowns well set with buds. Each \$5.00, doz. \$50.00.

JAPAN IMPORTATIONS

JAPAN PAEONIES—Herbaceous Sorts

The beauty of these rare and odd flowers is not so generally known as it should be. Whoever wishes to have distinct novelties should make a trial with these. They are not as dear as the European novelties brought in every season, and fully equal these in every respect. We name following:

- 1—Double rose, central petals are tipped with pale salmon.
- 2—Double white, the center petals tipped lemon.
- 3—Beautiful rose shade, the three rows of petals shading in three colors. One of the finest.
- 4—Double pink; very tall flower.
- 5—Delicate shade of rose marked and striped blood red.
- 6—Single, resembling a lotus flower; large center of bright yellow stamens.
- 7—Pure white.
- 8—One of the most beautiful; double; pure white with crimson stripes and tips.
- 9—Single; large flower with center of yellow stamens.

- 10—A beauty. Pale rose, central petals a pale cream.
- 11—Double; intense crimson, the center petals are tipped a pale yellow.
- 12—A beautiful form of single. Rose striped with crimson.
- 13—Large single flower; pink with yellow center stamens.
- 14—One of the best. Carmine, double; yellow center.
- 15—A grand single form. Velvety shade of purplish red with yellow center stamens.
- 16—A pure white.
- 17—Single white; striped greenish yellow and red. Most interesting variety.
- 18—One of the finest white. Double, with pyramidal form of flower.
- 19—Single large flower. Blush rose, yellow stamens.
- 21—A rare beauty. White striped with crimson at tips of petals. Tall double flower.
- 22—Light lilac shade.

Tree Peony

- 23—One of the showiest and best. An intense red with a mass of golden yellow center petals.
- 24—A single form. Rose, yellow center stamens.
- 25—Semi-double. Deep rose, shading to a lighter pink at the tips.
- 26—A rare and great beauty. Double; intense crimson. The three center layers of petals shade off into pure white. Unique flower.
- 27—A brilliant double crimson.

Per doz. \$6, collection of 27 \$12, per 100 \$40.

PAEONIA MOUTAN

(Tree Paeonias)

These differ from the herbaceous sorts in that the flowering branches are grafted on the stock of the ordinary Herbaceous Pæony. These branches do not die down in the fall like the herbaceous kinds, but remain growing on from year to year, attaining sometimes a size of 5 to 6 feet, forming tall shrubs. However, the higher the shrub grows, the size of flower diminishes. The finest and largest flowers are obtained while the shrub is under 30 inches in height. It grows slowly in height. Flowers attain an incredible size, many measuring 12 inches from tip to tip. They make a point of intense beauty in any garden and are highly valuable for Easter forcing. They can be planted in either fall or spring with equal success out-of-doors. Through the first winter they should be given the same protection as roses. Treatment should be the same as for Herbaceous Pæonias. The soil should be good, turfy loam. When the buds begin

to form, give weak manure water, and the flowers will attain enormous size and brilliant coloring. We offer fifty sorts of all shades of white to rose, carmine, scarlet, lilac, deep purple, etc. First size, dormant stock, with 2 to 3 flower-buds, \$1.00 each, \$10.00 per doz.; second size, dormant stock, with 1 to 2 flower-buds, 50c. each, \$9.00 per doz.

Japan Double-Flowering Cherry

The wealth of large, double, rosy flowers, hanging in bunches on artistically twisted branches makes a floral fountain of this beautiful plant. Stock is limited. Order early.

Dwarf. Twisted pot-grown. \$1.00 each, \$10.00 doz.

Cerasus pendula (The Weeping Japan Cherry). Branches of rosy flowers in weeping form. One of the most beautiful Spring flowering trees known. We furnish strong flowering young trees, averaging 2 feet high to 30 inches. \$1.00 each.

Novelties in Japanese Hydrangeas

We recommend these for their rich and varied colors, variety of bloom, vigorous growth. Differ in many ways from the old and well-known sorts. The only one well known so far is *Hydrangea Otaksa*, which has come from Japan. We offer:

Ajisai. Large head, bright blue.

Hortensis. Flowers pure white; large round head.

Benigaku. Small florets inside, large outside flowers; brilliant rose.

Aigaku. Same as Benigaku, but bright blue color.

Involucrata. Composed of many double florets; rosy white.

Stellata rubra. Rosy star like flowers.

We furnish large, strong, pot-grown plants of the above, flowering the first season. 60c. each, \$6.00 doz.

Novelty, Hydrangea Hortensis Rosea.—Magnificent flower head composed of many small rosy flowers with red stems. A beautiful new sort. Large plants, \$2.00 each, \$20.00 doz.

SOME JAPAN CONIFERS

Larix leptolepis (The Japanese Larch Tree).

One of the most ornamental Conifers known. It loses its needles in Fall and comes out in Spring in the most exquisite bright green known. Can be raised from seed, or we furnish strong, pot grown young plants which immediately get acclimated, the root system being perfect. This tree is hardy in coldest climate. 50c. each, \$5.00 doz.

Sciadopitys verticillata. Known as Umbrella Pine on account of its leaves looking like an inverted umbrella. 2 ft. \$1.50 each; 3 ft., \$3.00 each; 4 ft., \$10.00 each; 5-6 ft., \$15.00 each. Is perfectly hardy, and specimens which we imported 15 years ago are today in full growth and vigor.

To any one interested in Japan Conifer, we will, on application, send full list of all Pines, Abies, Piceas, Thuyas, Cryptomerias we can furnish.

JAPAN MAPLES

In the year 1877 small plants of Japanese Maples were brought from Japan to San Francisco, by Mr. H. H. Berger, and there sold for \$5.00 to \$10.00 each. Since that year thousands upon thousands have been imported, and many thousands have been grafted on imported seedlings. Still the demand increases as the value of these beautiful trees becomes better known. Time and experience have shown us which of the many sorts (there are over forty) are best adapted to this climate, and we offer only these sorts. They are invaluable pot grown and forced for Easter, and exquisite if used in jardinières, vases, or for table decorations with ferns and flowers. One of the most unique table decorations ever arranged was composed of yellow roses and foliage of *Acer atropurpureum*. Japan Maples form a point in the landscape not attained by any other shrub; as foreground to tall trees their brilliant foliage is shown to greatest advantage. They mostly attain a height of 8 to 12 feet with the exception of certain sorts. They are entirely hardy in the Eastern climate. The favorite sorts are:

Red and Claret Color

Acer atropurpureum. Claret color.

A. atropurpureum variegatum. As above, with beautiful variegations of rose and red. This sort attains a height of 12 to 20 inches.

A. atropurpureum dissectum. Fern-like cut leaf of the richest claret; habit of growth weeping; keeps color well, like all the *Atropurpureum* sorts.

A. atropurpureum dissectum variegatum. Same as *Dissectum*, with variegations of rose and white. Height, 4 to 5 feet.

A. scolopendrifolium rubrum. Claret-color leaf of finer sections than *Acer atropurpureum*.

A. sanguineum. Bright scarlet.

Acer Osaka zuki. We class this variety with the scarlet sorts, although it buds out green in Spring, unlike the other sorts, which at once show their brilliant coloring. This last species turns such a rich and flaming scarlet in Fall that it is well worth a place in every group.

Green Leaved Sorts

Indispensable in the grouping of Japan Maples.

Acer palmatum, or *Japonicum*. Broad leaf; bright green.

A. filicifolium. Fern like cut leaf.

A. dissectum. Same fern like leaf as *Atropurpureum dissectum*.

Green Ground with Variegations

Acer versicolor. Green, white and rose.

A. roseum marginatum. Green with rose margin.

A. reticulatum. Green with golden yellow net.

A. pictum maureum. With golden variegations.

A. pictum album. With white variegations.

A. aureum. The Golden-Leaved (very scarce); of an intense golden yellow, broad leaf.

We can furnish (November delivery to 1st of April): 1 to 2 ft., extra well-shaped plants, with good root system, 60c. each, \$6.00 doz., 2 to 3½ ft., \$1.50 each, \$12.00 doz.

Multigrafted Japan Maple

The gem of the Japan Maples is the Multigrafted. The most contrasting sorts, blood red, golden yellow, dark purple, wine color, etc., are grafted on one stem, producing, when

leaved out, a very large bouquet of foliage. These make grand Easter plants. We can furnish two sorts.

Dantsugi. Grafted on straight stems. 75c. each, \$7.50 doz.

Megane. Grafted on two stems, twisted in shape of 8. 75c. each, \$7.50 doz.

JAPAN AZALEAS

We mention only the sorts which are perfectly hardy. They form a dense mass of brilliant bloom in Spring and call forth the admiration of all beholders. They are not known as yet and are a decided novelty.

Ledifolium. Pure white; large, single, covered with such a mass of flowers in Spring that it resembles a huge snow bank, no green being visible for the enormous mass of bloom.

Hinodgiri. Covered with a mass of brilliant orange red bloom.

Yodagawa. Bearing a profusion of double bright lilac flowers.

Remember. All these are as hardy as *Azalea mollis* or *A. amena*, which latter the red sorts resemble largely.

We furnish strong, bushy plants, 12 to 18 inches high, at 75c. each, \$7.50 per doz.

Japan Wistaria Multijuga

This *Wistaria* has long racemes of pale rose flowers of most delicious fragrance. \$1.75 each, \$18.00 doz.

There are two forms of *Wistarias* which we furnish for forcing pot-grown. These can be brought into flower in the house for Easter and present a sight which in every respect surpasses the long known *Azaleas* used for these occasions. We offer *Wistarias*, pot-grown for forcing, strong flowering plants: 18 to 24 inches high. blue flowers, \$1.00 each, \$10.00 doz. White, \$1.50 each, \$15.00 doz.

Planted outdoors will be in full bloom in May.

Hardy Japan Magnolias

Conspicua. Pure white, with red stamens. Each 50c., doz. \$4.50, 100 \$30.00.

Stellata. Rosy white star-like flowers; very fragrant. Each 50c., doz. \$4.50, 100 \$30.00.

Obovata. Large flowers; outside rose, inside pearl color. Each 50c., doz. \$4.50, 100 \$30.00.

Parviflora. Exquisite hanging flower of pure white, with coral red stamens. Each 50c., doz. \$4.50, 100 \$30.00.

Watsoni. Upright flowers, same as *Parviflora*. Each 60c., doz. \$5.00, 100 \$40.00.

Hypoleuca. Large white flower; extra fine foliage. Each 40c., doz. \$4.00, 100 \$25.00.

BAMBOO STAKES

For Supporting Plants and Shrubs.

Durable year to year. Indispensable for tying Lilies, Roses, Chrysanthemums, Tomato Plants, Dahlias, etc. 6 ft. stakes. 100 \$1.00, 1000 \$5.00, 2000 \$9.00.

Extra heavy stakes for young trees, shrubs, etc.; diameter 1½ to 2 inches, 6 feet long. Doz. \$1.00, 100 \$5.00. 7 ft. long. Doz. \$1.25, 100 \$6.00.

These heavy stakes are also used for the building of Japan gardens, bridges, kiosks, etc.

NOTE—Having been the Pioneers in the importation of Horticultural Products from Japan, and continued for 30 years, we are confident we can furnish the best in that line.
